PSO (B. Sc.)

- To apply the fundamentals of mathematics and science to identify, formulate, design and investigate scientific problems.
- Import knowledge of science as basic objective of education.
- Scientific attitude to make students create open minded and curiosity.
- Understand the basic concepts, fundamental principles and scientific theories related to various scientific phenomena and their relevance in the day to day life.
- To design and conduct an experiments demonstrating their understanding of the scientific method and processes.

PSO (B. A.)

- Realization of human values.
- Sense of social service.
- Responsible and dutiful citizen.
- Students become familiar with representative literary and cultural texts within a significant number of historical, geographical and cultural contexts.
- Students will be able to write analytically in a variety of formats, including essays, research papers, reflective writing and critical reviews of secondary sources.

PSO (B. Com.)

- Students will acquire knowledge, skill in different areas of communication, decision making, innovations and problems solving in day to day business activities.
- Students develop practical skills to work in financial supporting services.
- Students can independently startup their own business.
- The knowledge different specialization in accounting, costing, banking and finance along with practical exposure helps the students to stand in organization.

PSO (Botany)

- Students are made aware of pollution problems and waste management and the importance of green environment.
- Apply environmental ethics and norms of biodiversity conservation.
- The course highlighted to conserve and study the (sustainable) suitable development.
- To have knowledge about various plant groups from lower to higher groups.
- To make students aware about biodiversity conservation and sustainable use of plants.
- Apply the knowledge of basic science, life sciences and fundamental process of plant to study and analyze plant form.

- Develop skills in practical work experiments, equipments and laboratory use along with collection and interpretation of biological material and data.

PSO (Zoology)

- Identify and classify common animals.
- Analyze the impact of environment on living being.
- Identify various potential risk factors to health of humans.
- Understand various genetic abnormalities.

PSO (Political Science)

- Students can analyze political policy problems and formulate policy options.
- Recognize key theories in international relation.
- Identify key political philosophers.
- Students get knowledge of issues of international and domestic politics and public policy.

PSO (Chemistry)

- Broad knowledge in chemistry in addition to understanding of key chemical concepts, principles and theories.
- To develop students ability and skill to acquire expertise over solving both theoretical and applied chemistry problems.
- To undertake further study in chemistry in related areas or multidisciplinary areas that can be helpful for employment.

PSO (Hindi literature)

- कथा साहित्य और पद्य के माध्यम से जीवन तथा मानवीय मूल्यों का ज्ञान ।
- रोजगारपरक िाक्षा प्रदान करना ।
- भाशा ज्ञान में बढ़ोतरी ।
- भाुद्ध हिन्दी बोलने और लिखने में बढ़ोतरी ।
- परम्परागत साहित्य के साथ साथ आधुनिक साहित्यिक विधाओं के सम्मिश्रण से हिन्दी साहित्य का अध्ययन करना ।

PSO (Economics)

- Understand major concepts and principles in economics students will be able to analyze economic behavior in practice.
- Students will have an ability to work efficiently in diverse field of statistics, economics and banking.
- Students can secure employment in various services of economics, statistics and banking.

PSO (English)

- Read interpret and write about a diverse range of texts in English.
- Participate in the critical and cultural discourses of English.
- Participate appropriately through multiple spoken and written forms.
- Analyze instances of the variety of literary forms closely in terms of style, figurative language and convention.

PSO (Mathematics)

- Understand the application of mathematics in different field.
- Derive methods of various mathematical operations.
- Able to perform basic computation in higher mathematics.
- Use mathematical ideas to model real world problems.
- Ability to analyze a problem, identify and define the computing requirements, which may be appropriate to its solution.

PSO (Sociology)

- To integrate sociological theory research and data in order to assess various explanation of social phenomena and to assess social policy.
- Understand the basic concepts in sociology and develop an understanding about macro and micro perspective in sociology.
- Understand the characteristics, social structure and problem of communication in India.
- Understand the philosophical foundation of sociology and its application.

PSO (Physics)

- To understand core knowledge of physics.
- Apply conceptual understanding of physics to general real world situation.
- Students acquire core knowledge in physics including classical mechanics, quantum mechanics, electromagnetic theory, electronics, optics and modern physics.
- Analyze physical problems and develop correct solution using natural laws.

PSO (History)

- Understand the basic themes, concepts, chronology and scope of Indian history.
- Understand the history of countries other than India with comparative approach.
- Critically recognize the social, political, economic and cultural aspects of history.
- Prepare for various types of competitive examinations.
